ISOFREE®

ZERO ODOR | **ZERO** CANCER CAUSING AGENTS | **ZERO** VOC'S

What Can Two-Part Catalyzed Urethane Isofree® do for your projects?

- Rainguard's patented Isofree technology provides you with advanced urethane systems without the harmful effects that other catalyzed products have.
- If your goal is to provide a safe workplace for applicators, occupants with zero emittance of greenhouse gasses and non-cancer causing ingredients, then Isofree is the BEST solution.
- Reduce construction costs. Less coats and no need to air out strong odors.
- Supported by industry competitive warranties.
- Available in clear gloss, satin and matte finishes.
- Tintable in virtually any color, with choices of gloss, satin or matte finishes.

Can Be Used On:

- Aluminum
- Steel and Galvanized
- Concrete
- Paint
- All Other Metals
- Block And CMU
- Plaster
- Other Cement

Engineered For Use On:

- Floors Of All Uses (Vehicular And Pedestrian)
- Walls Made Of All Materials (Interior And Exterior)
- Wood Table Tops
- Metal Placements
- Graffiti Barriers
- Marker Board Paint (Dry Erase)
- Quick Curing Applications
- UV Protectant As A Finish Coat Over Epoxy
