CLASSIFICATION: 09 96 00 Finishes: High-Performance Coatings

PRODUCT DESCRIPTION: VandlGuard® Original Non-Sacrificial Anti-Graffiti Coating protects surfaces from permanent staining and damage caused by commercially available spray paints. VandlGuard® can be applied to any vertical or horizontal surface and does not alter the surface appearance or yellow over time. VandlGuard® carries a one-year Material Warranty when applied as a single coat and a five-year warranty when applied in two coats. Meets ASTM D7089 and ASTM D6578/6578M. Also includes CSI MasterFormat 09 96 23 Graffiti-Resistant Coatings.

All Substances Above the Threshold Indicated Are:

- Characterized: Yes Ex/SC Yes No % weight and role provided for all substances.
- Screened: Yes Ex/SC Yes No All substances screened using Priority Hazard Lists with results disclosed.
- Identified: Yes Ex/SC Yes No One or more substances not disclosed by Name (Specific or Generic) and Identifier and/ or one or more Special Condition did not follow guidance.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:
This Health Product Declaration (HPD) was completed in accordance with the HPD Standard version 2.1.1, and discloses hazards associated with all substances present at or above 100 parts per million (ppm) in the finished product, along with the role and percent weight. Substances not "Identified" are those considered proprietary to suppliers.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

Material (g/l): <1 g/l
Regulatory (g/l): <1 g/l
Does the product contain exempt VOCs: No
Are ultra-low VOC tints available: N/A

CERTIFICATIONS AND COMPLIANCE
See Section 3 for additional listings.

VOC emissions: CDPH Standard Method – Not tested
VOC content: EPA Method 24 - Volatile Matter Content (EPA 24)

CONSISTENCY WITH OTHER PROGRAMS
Pre-checked for LEED v4 Material Ingredients, Option 1 and Option 2

### Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1.1, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-1-1-standard](http://www.hpd-collaborative.org/hpd-2-1-1-standard)

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

**MICRO-SEAL® WATER REPELLENT**

**HPD URL:** https://www.hpd-collaborative.org/hpd-public-repository/

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:
Bare Surfaces: Apply one coat of RainguardPro Micro-Seal® Water Repellent before applying any VandlGuard® system. This is required for applications that need warranties on a substrate that is unpainted or unsealed.

**VANDLCLEAN™ SUPER GRAFFITI CLEANER**

**HPD URL:** No HPD available

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:
Use only Rainguard VandlClean™ Super to maintain application warranties. VandlClean™ Super graffiti cleaner is an environmentally friendly, biodegradable graffiti remover designed to dissolve spray paint, marker, pen and pencil. VandlClean™ Super is a concentrated citrus based cleaner and degreaser designed for cleaning almost any surface with stains not affected by water alone.

Section 5: General Notes

This product is certified and approved by the Los Angeles Department of Building and safety (LA RR25060). For additional performance-testing information, please contact Rainguard technical services at 888-765-7070.
Approvals & Qualifications: Material Type - Cross Linked Co-Polymer; Permeability 100%; Volume Approx. 40%; Weight Approx. 58% Solids; Slight Latex Odor; Temp Range Application 40º-100º F; Color of Material - Clear; Non-Flammable; Surface Dry Time 1-2 Hours; Full Chemical Cure 72-96 Hrs @ 75ºF. Graffiti resistance is fully developed after a cure time of 5-7 days depending on weather conditions. When using a power washer, keep pressure less than 500 psi. For difficult removal use warm to hot water while power washing. In order to maintain application warranties only use Rainguard VandlClean™ Super, a nonhazardous biodegradable cleaner. Follow the manufacturer's recommendations and instructions for use. In addition, warm water power-washing has also been known to assist in the removal of tagging.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
